IMMIGRATION

WHY HIRE AN IMMIGRATION LAWYER ?

Immigration law is complex and always changing. These changes are constantly monitored by members of our firm. A good immigration lawyer should be able to give you an honest assessment of your case and be able to explain the options available to you based not only upon the state of the law today, but considering future changes that are being proposed in Washington.

The lawyer should be able to represent you before the immigration service and advise you what you can expect at a interview or hearing. In addition, the attorney should provide a quote for the legal work to be performed and if hired the agreement should be in writing. (continued on page 3)

Many of our clients come to us after they have been the victim of fraud by a “notario” or “immigration consultants” claiming to understand immigration law. In many cases they have filed the wrong documents, missed

a deadline or failed to fully disclose all the facts of a case to the Immigration office.

This can mean the difference between legal status, deportation and in the case of an asylum seeker, even death. These individuals target the Spanish-speaking population by becoming notary publics in order to advertise as “notarios” who are regarded as “attorneys” in Latin America. “Notarios” are not attorneys and

are not able to give legal advise.

Recently a bill was introduced in Washington would have made this a crime.

We support this effort to protect the community from people who would take advantage of those hopes and dreams.

In the spring of 2003 we moved to our new building located at 4713 Bergenline Ave. Union City, N.J. The building is next door to the new light rail station that is expected to open in 2005 and will link Union City to mass rail transportation. The building was formerly a grocery store.
